### Key dates for the term:

Autumn Seminar 07.12.17

Annual Quiz 07.12.17

Student CV submission 5.1.18

## Team NEWS

Welcome Stephen Hillyard, our newest recruit to the NETP Team and to the University bringing a wealth of knowledge from Northampton College.

## STEAM

### Calling all NETP partners

The University of Northampton is hosting the Big Bang Northampton @ Silverstone on Wednesday 28 February 2018 and you have the opportunity to showcase your company and the careers it offers to over 3000 young people aged between 9 and 19.

Find out how you can be involved by emailing [aspire@northampton.ac.uk](mailto:aspire@northampton.ac.uk)

## Placements

•••

We have had some very positive responses in our first set of placement visits for both BSc and BEng students. Keep up the good work!

## Autumn Seminar

•••

This year's Autumn Seminar is to be held on Thursday 7<sup>th</sup> December in Newton Grand Hall from 5pm to 6pm with speakers from Recol and Dajo. The theme for this event is

'Acorns to Oak Trees'

Showing how small ideas can become huge successes! This will be followed by....

## The Annual Quiz

•••

Newton Grand Hall 6.30pm

Students pitch yourselves against the NETP partners!

## FORMULA STUDENT

Update for the coming year:

During the summer, Mateusz Gizicki and Adrian Dancea have been working on disassembling a Yamaha R6 YFZ 2005. The engine detached from the bike is now ready to be installed on the Formula Student racing car.

The design team is comprised of Sam, Ille, Alex and Mateusz. They have consistently worked hard towards the design of the race-car chassis frame and have now finished the major modelling process. The design has been done following the IMechE general design requirements.

Meanwhile, the business team is building up new strategies that will ensure a smooth running of the project.

On top of that, the business team is also concentrating on gaining sponsorship and developing future partnerships.

The business team is divided into 3 parts: Administration, Marketing and Finance. These will be working together to achieve the common goal.

Members of the Formula Student team gave a presentation at the NETP meeting and subsequently have had lots of offers of help from partners. Details of the project and ways to get involved will be kept up to date on the NETP website.

Thank you all.

## Meet the Partners

A very worthwhile event that attracted numerous first year students interested in taking up a placement. One of our newer partners Igus provided lots of fun interactive product giveaways and students interacted with all companies in a constructive way. The partners were very impressed with their confidence, enthusiasm and professionalism. Thank you to everyone that attended and we look forward to seeing these students gaining some industry experience in the near future.

CV submission deadline for students - 05.01.18

### Advanced Manufacturing Event

The NETP team visited the Advanced Engineering Show on 2.11.17 followed by a group of Engineering students & academic staff at the NEC, Birmingham. An excellent time was had by all with some fascinating stands and products and some interest in offering placements.

NETP partner Dave Chandler of DAJO Solutions also presented to the crowds.

(see NETP website for link)

### Potential Partners

The NETP team have been networking over the past few months bringing in new placement opportunities for university students and industrial links for in session activities. Thanks to Scott Bader, MISWA and Eurotowers for taking the time to find out more about the NETP scheme and how they can get involved.

Watch this space for more connections!
