

HELLO SUMMER

For the majority of students exams are over and the summer has begun! Time to relax and enjoy some well earned rest. Good luck to those doing their re-sits!

Placement Year

Well done to all year 2 BEng students who have completed their placement year. We have had tremendous feedback for all of you. You have been a real credit to yourselves and the University. The skills & experience you have gained will stand you in good stead in your future careers. It has also been fantastic to hear that some of you are being sponsored in your 3rd year with a view to Post Graduate employment. We look forward to you sharing your journeys with us and other potential placement students.

TEAM NEWS

The team are putting together a report in July for the 2017/18 year documenting all the hard work & effort everyone has put in. If you have any comments please shout!

Key dates for the term:

Results for ENG - 4.7.18

MIA event Silverstone – 5.7.18

Re-sits – July & August 2018

**Summer Internships
commence!**

Placements

Year 1

Once first year results have been ratified we will be able to confirm all those eligible for the placement year in September.

Employers please look out for CV's winging their way to you.

Students please look out for interview requests and remember those all important skills you have learned. If you would like a refresher please make an appointment at the Changemaker Hub.

Good Luck to you all!

STEAM:

This week saw numerous students from year's 6-8 take part in a STEM activity day hosted at Avenue Campus. Girls from across the county were able to see how diverse careers within these subjects can be and also how fun STEM subjects are. From DNA to Circuit Boards to building Race Cars there was something for everyone. Our house robot even made an appearance alongside Viglen's immersive game and RS Components Titan 2 wowed the girls outside the building. Thank you to all schools, staff and companies who came along and to Linda for organizing a very interesting event!

Facebook:

The UoN has set up a Facebook Group for Placements & Work Based Learning. Here you will be able to find and discuss placement opportunities, talk about experiences, post photos, share information and ask any questions.

Formula Student:

The University have appointed a new member of staff to take on the role of academic lead for the FS Team. Mo has experience in designing and developing cars so with his skills and knowledge and support from our NETP providers we should really see some results in 2018/19.
